

THIRTY-NINTH
ANNUAL ANNOUNCEMENT
OF
RUSH MEDICAL COLLEGE,
CHICAGO,
FOR THE
SESSION OF 1881-82.

OPPOSITE THE COOK COUNTY HOSPITAL,
Corner of Wood and West Harrison Streets.

CHICAGO:
TUCKER, NEWELL & Co., PRINTERS.
1881.

Board of Trustees.

HON. L. C. P. FREER, PRESIDENT.

HON. GRANT GOODRICH, LL.D., SECRETARY.

MOSES GUNN, M.D., TREASURER.

HENRY M. LYMAN, M.D., ASSISTANT SECRETARY.

J. ADAMS ALLEN, M.D.
DE LASKIE MILLER, M.D.
JOSEPH P. ROSS, M.D.
HON. JOHN C. HAINES.

EDWARD L. HOLMES, M.D.
JAMES H. ETHERIDGE, M.D.
R. C. HAMILL, M.D.
CHARLES T. PARKES, M.D.

HIS EXCELLENCY S. M. CULLOM, *Governor.*

HON. H. H. THOMAS, *Speaker House Rep.*

J. ADAMS ALLEN, M.D., LL.D., *Pres. of College.*

} *Ex-Officio.*

Faculty

J. ADAMS ALLEN, M.D., LL.D., PRESIDENT,

Professor of the Principles and Practice of Medicine,

1456 Michigan Avenue.

DELA SKIE MILLER, PH. D., M.D.,

Professor of Obstetrics and Diseases of Children,

2011 Wabash Avenue.

MOSES GUNN, M.D., LL.D.,

Professor of the Principles and Practice of Surgery and Clinical Surgery,

2101 Calumet Avenue.

JOSEPH P. ROSS, A.M., M.D.,

Professor of Clinical Medicine and Diseases of the Chest,

428 West Washington Street.

WILLIAM H. BYFORD, A.M., M.D.,

Professor of Gynæcology,

125 State Street.

EDWARD L. HOLMES, A.M., M.D.,

Professor of Diseases of the Eye and Ear,

207 S. Clark St., N. E. cor. of Adams Street.

HENRY M. LYMAN, A.M., M.D.,

Professor of Physiology and of Diseases of the Nervous System,

533 West Adams Street.

JAMES H. ETHERIDGE, A.M., M.D., SECRETARY,

Professor of Materia Medica and of Medical Jurisprudence,

1634 Michigan Avenue

CHARLES T. PARKES, M.D.,

Professor of Anatomy, Descriptive and Surgical,

125 State Street.

WALTER S. HAINES, A.M., M.D.,

Professor of Chemistry and Toxicology,

Rush Medical College.

JAMES NEVINS HYDE, A.M., M.D.,

Professor of Skin and Venereal Diseases,

117 S. Clark Street.

JOHN E. OWENS, M.D.,

Professor of Orthopædic Surgery, and Lecturer on Surgery,

1806 Michigan Avenue.

ISAAC N. DANFORTH, M.D.,

Professor of Pathological Histology and Lecturer on Renal Diseases,

349 West Adams Street.

FRANCIS L. WADSWORTH, M.D.,

Adjunct Professor of Physiology,

131 Dearborn Avenue.

NORMAN BRIDGE, M.D.,

Adjunct Professor of the Principles and Practice of Medicine.

81 Throop Street.

J. SUYDAM KNOX, A.M., M.D.,

Adjunct Professor of the Diseases of Children, and Lecturer on Therapeutics,
16 Locomis Street.

DANIEL T. NELSON, A.M., M.D.,

Adjunct Professor of Gynæcology,
2400 Indiana Avenue.

PROF. T. D. FITCH, M.D.,

296 West Monroe Street.

P. ADOLPHUS, M.D.,

638 West Washington Street.

Clinical Adjuncts to the Chair of Gynæcology.

A. B. STRONG, A.M., M.D.,

Demonstrator, and Lecturer on Anatomy,
533 West Monroe Street.

E. FLETCHER INGALS, A.M., M.D.,

Lecturer on Diseases of the Chest and Physical Diagnosis,
188 S. Clark Street

LAFAYETTE W. CASE, M.D.,

Lecturer on Dermatology,
332 Division Street.

EDW. WARREN SAWYER, A.M., M.D.,

Lecturer on Obstetrics and Diseases of Children,
3701 Vincennes Avenue.

D. W. GRAHAM, A.M., M.D.,

Assistant in Clinical Surgery.

W. S. HARROUN, A.M., M.D.

JOHN A. ROBISON, A.M., M.D.,
Assistants to the Chair of Clinical Medicine.

WM. T. BELFIELD, M.D.,

Demonstrator of Physiology.

LEWIS L. MCARTHUR, M.D.,

W. H. TAYLOR, A.B., M.D.,

Demonstrators of Chemistry.

F. E. SHERMAN, M.D.,

E. W. WHITNEY, A.B., M.D.,
Assistant Demonstrators of Anatomy.

A. C. COTTON, M.D.,

Demonstrator of Materia Medica.

E. P. MURDOCK, M.D.,

Curator of the Museum.

CHARLES G. SHIPMAN, M.D.,

Registrar of the Surgical Clinic.

MR. FRANK JORDAN GOULD, *College Clerk.*

ANNUAL ANNOUNCEMENT

FOR THE SESSION OF 1881-82.

THE THIRTY-NINTH ANNUAL SESSION OF RUSH MEDICAL COLLEGE will commence Tuesday evening, September 27, 1881, and will continue twenty-one weeks. The introductory address will be delivered by Prof. Joseph P. Ross.

Instruction in this institution is given by lectures, clinics, practical work in the dissecting room and laboratories, and by repeated oral examinations.

THREE YEARS' COURSE.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the college during three winter and three spring terms. To encourage this more extended curriculum of college study, final examinations in descriptive anatomy, physiology, chemistry, materia medica and therapeutics, are offered to three years' students at the end of the second winter session.

To each graduate who has studied, as above recommended, three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed both by the Faculty of the college and by the Spring Faculty. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

COURSE OF STUDY.

Students of the college, and those who are pursuing their studies elsewhere with the intention of completing their collegiate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospital and dispensaries will be arranged, as far as possible, in accordance with this schedule, not only to accommodate beginners, but, also, advanced students, and practitioners who desire to review their studies.

As the spring course has become a most important addition to the college work, the period of study required for graduation is divided into six terms. The following schedule of studies has been adapted to the wants and convenience of students during each period of their progress, whether they are in the college or preparing to enter. There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same designated in this schedule as suitable for each term.

TEXT BOOKS FOR STUDY.

Wilson's (1880) or Gray's Anatomy. Heath's Dissector. Foster's Physiology. Atfield's Chemistry. Bartholow's Practice of Medicine. Druitt's Surgery, for beginners; Gross' or Erichsen's, for advanced students. Byford's Obstetrics. Byford's Diseases of Women. Bartholow's Materia Medica. Green's Pathology. Williams' or Carter's Diseases of the Eye. Frey's Compendium of Histology. Smith on Diseases of Children. Flint's Clinical Medicine.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule and to use the above text-books.

SCHEDULE OF STUDIES.

First Term—Spring.

LECTURES:—*Anatomy*—Cells, Fibres, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospital and Dispensary.

Second Term—Winter.

LECTURES:—*General Anatomy—Materia Medica, Physiology—Alimentation, Digestion, Absorption. Inorganic Chemistry, with Laboratory work. Surgery—Ulceration and Suppuration, and their results.*

Surgical Clinics. Dissection of the external soft parts. Study of the Bones. Practice in Auscultation and Percussion of the Normal Chest and Abdomen.

Third Term—Spring.

LECTURES:—*General Anatomy—Bones—External soft parts. Chemistry—Laboratory work—Analysis. Urinalysis. Physiology—Secretion, Nutrition, Movements. Surgery—Surgical Dressings and Appliances. Principles and Practice of Medicine—Congestion, Inflammation and its results, Fever—Materia Medica.*

Exercises in normal and abnormal Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and of its organs, and of the Fœtus. Medical and Surgical Clinics.

Fourth Term—Winter.

LECTURES:—*General Anatomy—Regional Dissections, Brain and Spinal Column, Histology. Physiology—Nervous System, Reproduction. Organic Chemistry—Laboratory. Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics—Generation, Fœtal Development, Normal Parturition.*

Exercises in bandaging and application of splints. Operations on the Cadaver. Anatomy and Physiology of the Eye and Ear. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. Pathology and Post Mortem Examinations.

Final examinations in Descriptive Anatomy, Physiology, Chemistry, Materia Medica and Therapeutics for those who take three winter courses.

Fifth Term—Spring.

LECTURES:—*Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics.*

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special; Diseases of Women and Children. Pathology and Post Mortem Examinations.

Sixth Term—Winter.

All Lectures and Clinics, Regional Dissections; Post Mortem Examinations. General Review.

Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.

PRACTICAL CHEMISTRY.

The college is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines will give a special course in practical chemistry, devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this college, students will find the spring term a most convenient time for the pursuit of this study.

PRACTICAL ANATOMY.

The very best advantages for the practical study of anatomy, including osteology, will be afforded. Material in abundance will be provided.

PRACTICAL PHYSIOLOGY.

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses. A course of lessons in Histology and Practical Microscopy will be given.

CLINICAL INSTRUCTION.

In the College Building.

A SURGICAL CLINIC will be given by Prof. Gunn every Saturday; a clinic on DISEASES OF THE CHEST by Prof. Ross, and one on DISEASES OF THE NERVOUS SYSTEM by Prof. Lyman, every Thursday; a MEDICAL CLINIC by Prof. Bridge, every Wednesday; and a clinic on ORTHOPÆDIC SURGERY by Prof. Owens, every Saturday, immediately after Prof. Gunn's clinic, all continuing throughout the year.

Diseases of Children.

Prof. Miller, aided by Adjunct Prof. J. S. Knox, will also give before the entire class in the amphitheater, one special clinic, each week throughout the year, on DISEASES OF CHILDREN.

Gynæcology.

Prof. Byford, with Profs. D. T. Nelson and T. D. Fitch and Dr. P. Adolphus, will hold a daily clinic in the college building, for the special instruction of the graduating class in CLINICAL GYNÆCOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics, before small sections of the graduating class, there will be given each week one public clinic, when the most interesting cases will be presented.

Skin and Venereal Diseases.

Prof. Hyde will give a clinic on SKIN AND VENEREAL DISEASES at 3 P. M., of every Tuesday throughout the year, in the upper amphitheater of the building. The extensive collection of plates and photographs, lately purchased by the college, has been arranged in cabinets, on the same floor and adjacent to the amphitheater, with especial view to the illustration of this department.

Prof. Hyde, with the assistance of Dr. W. J. Maynard, will also give private instruction in Skin and Venereal Diseases, with a view to the practical study of these subjects by the aid of clinical material.

Diseases of the Eye and Ear.

Prof. Holmes, with the assistance of Dr. W. T. Montgomery, will give every Wednesday, throughout the year, a clinic, in the amphitheater, on DISEASES OF THE EYE AND EAR.

Prof. Holmes will also give private instruction in the use of the ophthalmoscope, the adaptation of spectacles, and methods of examining the ear.

THE COUNTY HOSPITAL.

(Opposite the College Building.)

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly half a million dollars.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the clinic room in which all the surgical, medical and special clinics are held. More than two thousand patients were treated at the hospital during the past year; nearly two hundred important surgical operations were performed, of which forty were capital amputations.

In the rear of the amphitheater is the Mortuary or Necropsy Theater, in which are held all the post-mortem examinations of the hospital. Most ample opportunities will be given for the complete study of the gross as well as of the microscopical appearances produced by disease.

AT THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.

Corner of Peoria and Adams Streets.

This large institution affords almost unlimited facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 1,600 patients received treatment at the Infirmary; 270 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes and Hotz.

AT THE CENTRAL DISPENSARY.

Extraordinary opportunities are offered to students and practitioners for clinical instruction at the Central Free Dispensary, which occupies the first floor of the college building. More than six thousand different patients received treatment in this dispensary during the past year. Patients are classi-

fied according to their diseases. Every opportunity is afforded for the study of specialties.

One clinic will be given weekly, by each of the following named gentlemen :

Drs. E. F. Ingals and J. A. Robison, on DISEASES OF THE CHEST AND THROAT ; Drs. W. J. Maynard and R. D. MacArthur, on SKIN AND VENEREAL DISEASES ; Dr. R. S. Hall, on DISEASES OF CHILDREN ; Drs. E. B. Loomis and D. W. Graham, on SURGERY ; Dr. W. T. Montgomery, on DISEASES OF THE EYE AND EAR ; Drs. Brophy and Talbot, on DENTAL SURGERY.

PRACTICAL OBSTETRICS.

The Lying-in Department of the Central Free Dispensary is organized under the immediate care of Dr. P. Adolphus.

Advanced students will have opportunities for the study of practical obstetrics at the bedside.

DISEASES OF THE TEETH AND MOUTH.

Drs. T. W. Brophy and E. S. Talbot will give three weekly clinics in this department of the dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

HOSPITAL INTERNES.

Positions of Internes in the Cook County Hospital, and the St. Luke's Hospital, are open each spring to students who graduate and pass a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging, and secure an extensive experience in every department of practical medicine and surgery.

SPRING COURSE.

The Faculty ask special attention to the great advantages offered by the Spring Course, beginning the first Wednesday in March, at 10 A. M., and continuing sixteen weeks.

It consists of lectures and recitations at the college, practical work in the laboratories and dissecting room, and clinical instruction at the hospital and dispensaries.

At the close of each term, students will be examined and will receive certificates of attendance and grade of examination, marked on a scale of ten. The grade will indicate the average standing in all the departments attended. Students who prefer to attend only a part of the branches taught, according to the schedule of studies above presented, may do so, and be relieved from examinations in other departments. In the studies taken a corresponding higher standing will be demanded for a given grade.

This course cannot be accounted as a "course of lectures," in the requirements for graduation.

It is a source of satisfaction to the Faculty, as it must be to all friends of the college, that so many young men are impressed with the importance of spending two terms each year in their professional study. Two hundred and fifty-six students matriculated during the spring session, 1881.

EXAMINATIONS.

The regular examinations for a degree are held only once annually, during the last week of the winter session.

Students, however, who will enter the college for at least three full winter terms of study may receive their final examination in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Those students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one half of the examination fee. (See *Fees*, pages 13 and 14.)

Students who have failed in their examination for the degree of medicine, may receive their diplomas at the close of the spring term on passing a second examination in those branches, in which they were deficient. There will be no fee for the second examination.

GRADUATION.

The following are the requirements for the degree of Doctor of Medicine:

1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, with such primary education as is clearly requisite for a proper standing with the public and the profession.

2d. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, of which the first one may have been in some other recognized medical college, and the last in this institution. The lectures of the spring term cannot be accounted as a "course of lectures" in this requirement.

3d. He must have received clinical instruction during at least one college term.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent of having dissected each region of the body.

5th. He must have taken one course in Practical Chemistry, under the direction of the Professor of Chemistry.

6th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the examination fee with the Treasurer, on or before the 20th day of January.

7th. Every candidate must undergo a full and satisfactory written or oral examination on each branch taught in the college.

FEES FOR THE ANNUAL WINTER COURSE.

| | | | |
|--|---|---|--------|
| <i>Matriculation fee (good till the following March)</i> | - | - | \$5.00 |
| <i>Lecture fees for the course,</i> | - | - | 75.00 |
| <i>Admission to the dissecting room till the following March</i> | | | |
| —material at cost price, | - | - | 5.00 |
| <i>Admission tickets are issued only to holders of the general ticket.</i> | | | |
| <i>Practical chemistry—chemicals at cost price,</i> | - | - | 5.00 |
| <i>Examination for degree—fee not returnable,</i> | - | - | 30.00 |

Three years' students, examined at the end of their second winter, must advance one half of this fee.

There is no graduation fee.

From Alumni of this college, and from its students who have taken and paid for two full courses of lectures, the matriculation fee only (\$5.00) will be expected. From alumni of other respectable medical colleges the matriculation fee and one-half lecture fee will be required.

Tickets for Cook County Hospital and for the Eye and Ear Infirmary—good for one year—each, - - \$5.00

FEES FOR THE ANNUAL SPRING COURSE.

Matriculation Fee (good till the following March) - - \$5.00
Lecture Tickets, - - - - - 20.00

This amount will be deducted from the fees of the next following winter session.

Graduates of the college are admitted on payment of the matriculation fee only; graduates of other regular medical colleges on payment of matriculation fee and ten dollars.

Fee for Practical Chemistry (students will also pay cost price for chemicals used), - - - - 5.00

Admission to the dissecting room—material at cost price, 3.00

Tickets for the Cook County Hospital, and for the Eye and Ear Infirmary, good for one year, each - - 5.00

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the college, from the Treasurer, Professor GUNN, or from Mr. FRANK J. GOULD, College Clerk.

Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select for them, on receipt of the matriculation fee previous to the opening of the session; but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.

The College Clerk may be seen in the college building, and will aid in obtaining boarding-places, rooms, etc.

For further information address the Secretary, Prof. J. H. ETHERIDGE, M. D., No. 1634 Michigan avenue.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board, \$2.50 to \$3.00.

TEXT BOOKS.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended :

Chemistry.—Attfield.

Anatomy.—Quain, Wilson, Gray (1880), Heath's Dissector.

Physiology.—Foster, Carpenter.

Materia Medica and General Therapeutics.—Bartholow, Fothergill, The National Dispensatory, Ringer, Binz.

Medical Jurisprudence.—Elwell, Taylor, Beck, Casper.

Obstetrics.—Byford, Cazeaux, Playfair.

Diseases of Women.—Byford on Diseases of Women, Barnes, Thomas.

Diseases of Children.—Smith, Meigs and Pepper.

Surgery and Surgical Pathology.—Gross, Erichsen, Druitt, Paget, Bryant.

Practice of Medicine.—Bartholow, Flint, Bristowe, Harts-horne's Watson.

Pathology.—Green, Rindfleisch, Wagner, Billroth, Cornil and Ranvier.

Clinical Medicine.—Bennett, Trousseau, Flint.

Diseases of the Heart.—Flint, Walsh.

Diseases of the Lungs.—Walsh, Fuller.

Surgical Anatomy.—MacLise, Hyrtl.

Microscopical Anatomy.—Stricker, Frey's Compendium, Schæfer.

Ophthalmology.—Williams, Wells, Stellwag, Carter.

Otology.—Roosa, Burnett, Buck.

Orthopædic Surgery.—Sayre's Orthopædic Surgery and Diseases of the Joints.

Dermatology.—Hebra, Duhring.

PRACTITIONERS' COURSE.

The Practitioners' Course of lectures in this college will commence on Tuesday, April 4th, 1881, 10 A. M., and will conclude on the second of the following May, thus continuing four weeks.

The Faculty desire to announce distinctly that this Course is for the special benefit of practitioners of medicine, graduates or non-graduates, and is wholly distinct from the lectures to students in the college curriculum. A certificate of attendance, signed by the President and Secretary of the college, is granted at the conclusion of the course.

The upper auditorium of the college building will be devoted exclusively to the use of practitioners during these lectures, which will thus be entirely separate from the annual spring course attended by students in the lower amphitheater. A requisite portion of the dissecting room will also, during the month, be exclusively allotted to those in attendance who desire to dissect or to perform the operations of surgery. All such operations will be performed under the supervision of the Professor. An abundance of material, both for operations and dissections, will be supplied at cost.

Lectures will be given by the Faculty on the subjects named below:

PROF. ALLEN, on Derangements of Digestion.

PROF. MILLER, on Selected Topics in Obstetrics.

PROF. GUNN, on Dislocations of Hip and Shoulder, and some of the more important Fractures and Operations, with Practical Demonstrations.

PROF. ROSS, on the Clinical Investigation of the Diseases of the Heart.

PROF. BYFORD will present such subjects in connection with Gynæcology as are of special interest to the General Practitioner.

PROF. HOLMES, on The Diagnosis and Treatment of important Diseases of the Eye and Ear.

PROF. LYMAN, on Certain Diseases of the Nervous System.

PROF. ETHERIDGE, on New Remedies.

PROF. PARKES, on External Surgical Landmarks, with Regional Demonstrations on the Body.

PROF. HAINES, Practical Instruction in Urinalysis.

PROF. HYDE, on The Skin and Venereal Diseases of most Frequent Occurrence.

PROF. OWENS, on Selected Topics in Orthopædic Surgery.

PROF. WADSWORTH, on Physiological and Histological Demonstrations by the aid of the Microscope.

PROF. DANFORTH, on Renal Therapeutics.

DR. INGALS, on Laryngology.

Four lectures will be given daily, between the hours of 8 A. M. and 12 M. From 2 to 4 P. M. of each day the regular college, dispensary, and hospital clinics will be held. At these clinics, seats will be reserved in the arena of the college amphitheaters for practitioners in attendance, thus affording them the amplest opportunities for practical observation and study.

In addition to this, practical instruction will be given each day in Gynæcology, by the clinical adjuncts of that chair, Profs. Etheridge and Nelson and Dr. Adolphus. Facilities are thus extended for intimate personal examination of a large number of interesting cases in this department.

Fees for the entire course, including matriculation, clinical instruction, and use of dissecting room (material only extra and at cost), thirty dollars. Tickets can be had at any time by applying to the Clerk of the College, Mr. FRANK J. GOULD, at the college building, corner of Wood and Harrison streets, either in person or by letter. Seats can be secured by forwarding the matriculation fee to the Clerk of the Col-

Matriculates for Session 1880-81.

The Alumni Association of Rush Medical College.

OFFICERS FOR THE YEAR 1881-82.

President, J. L. WHITLEY, M.D., Osage, Iowa.

1st Vice President, J. B. HAMILTON, M.D., of Washington, D. C.

2d Vice President, PHILIP LEACH, M.D., of Class 1881.

Secretary and Treasurer, F. A. EMMONS, M.D., of Chicago.

Executive Committee: JNO. E. OWENS, M.D.,
W. T. BELFIELD, M.D.,
OTTO T. FREER, M.D.,

Prize Essay Committee: CHAS. T. PARKES, M.D.,
L. L. McARTHUR, M.D.,
A. W. MEACHAM, M.D.

The next annual meeting of the ALUMNI ASSOCIATION OF RUSH MEDICAL COLLEGE, will be held on "Commencement Day," Tuesday, February 21, 1882, at 10 A.M., in the Upper Amphitheater of the College.

The election of officers and transaction of other business, together with the presentation of papers will occur at that hour.

All Alumni in good standing are invited by the Faculty of the College, to attend the Banquet, on the evening of "Commencement Day."

Members of the Association who have not already paid their dues should forward the amount (\$1.00) to the Treasurer, to secure a copy of the Transactions of the last meeting. All alumni of the College who are in good standing in the profession, are requested to join the Association, which each one may do by forwarding his name and \$1.00, the amount of the annual dues, to Dr. Emmons, 3422 Indiana Avenue.

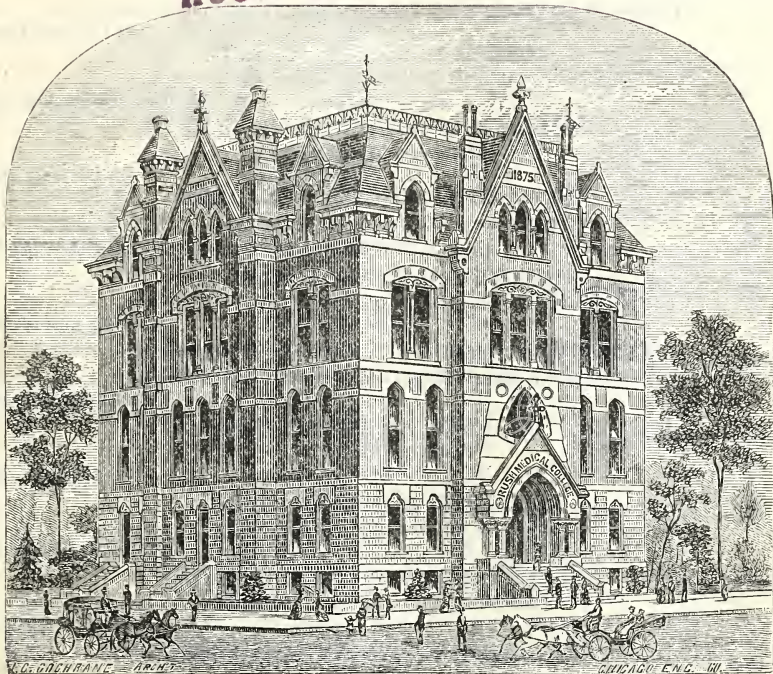

In writing to the Secretary, ALWAYS STATE THE DATE OF GRADUATION.

Graduates are requested to notify the Secretary of the College, Prof. J. H. Etheridge, of changes of residence.

THIRTY-NINTH COLLEGE YEAR.

ANNOUNCEMENT

OF

The Practitioners' Course

AND OF THE SPRING COURSE OF LECTURES.

1881.

CHICAGO :

J. J. SPALDING & Co., PRINTERS, 158 CLARK STREET.
1881.

FACULTY.

J. ADAMS ALLEN, M. D., LL. D., PRESIDENT,
Professor of the Principles and Practice of Medicine,

1456 Michigan Avenue.

DE LASKIE MILLER, PH. D., M. D.,
Professor of Obstetrics and Diseases of Children,

2011 Wabash Avenue.

MOSES GUNN, M. D., LL. D.,
Professor of the Principles and Practice of Surgery and Clinical Surgery,

2101 Calumet Avenue.

JOSEPH P. ROSS, A. M., M. D.,
Professor of Clinical Medicine and Diseases of the Chest,

428 West Washington Street.

WILLIAM H. BYFORD, A. M., M. D.,
Professor of Gynæcology,

125 State Street.

EDWARD L. HOLMES, A. M., M. D.,
Professor of Diseases of the Eye and Ear,

207 S. Clark Street, N. E. cor. of Adams Street.

HENRY M. LYMAN, A. M., M. D.,
Professor of Physiology and of Diseases of the Nervous System,

533 West Adams Street.

JAMES H. ETHERIDGE, A. M., M. D., SECRETARY,
Professor of Materia Medica and of Medical Jurisprudence,

1634 Michigan Avenue.

CHARLES T. PARKES, M. D.,
Professor of Anatomy,

125 State Street.

WALTER S. HAINES, M. D.,
Professor of Chemistry and Toxicology,

Rush Medical College.

JAMES NEVINS HYDE, A. M., M. D.,
Professor of Skin and Venereal Diseases,

117 S. Clark Street.

JOHN E. OWENS, M. D.,
Professor of Orthopædic Surgery,

1806 Michigan Avenue.

FRANCIS L. WADSWORTH, M. D.,
Adjunct Professor of Physiology,

131 Dearborn Avenue.

PROF. T. D. FITCH, M. D.,

296 West Monroe Street.

PROF. D. T. NELSON, M. D.,

2400 Indiana Avenue.

P. ADOLPHUS, M. D.,

638 West Washington Street.

Clinical Adjuncts to the Chair of Gynæcology.

J. SUYDAM KNOX, M. D.,
Clinical Adjunct to the Chair of Diseases of Children,

16 Loomis Street.

A. B. STRONG, A. M., M. D.,
Demonstrator of Anatomy,

533 West Monroe Street.

SPRING FACULTY.

ISAAC N. DANFORTH, M. D., PRESIDENT,
Lecturer on Pathology,

349 West Adams Street.

JOHN E. OWENS, M. D.
Lecturer on Surgery,

1806 Michigan Avenue.

FRANCIS L. WADSWORTH, M. D., SECRETARY,
Lecturer on Physiology and Histology,

131 Dearborn Avenue.

E. FLETCHER INGALS, A. M., M. D.,
Lecturer on Diseases of the Chest and Physical Diagnosis,

188 S. Clark Street.

LAFAYETTE W. CASE, M. D.,
Lecturer on Dermatology and Venereal Diseases,

332 Division Street.

PHILIP ADOLPHUS, M. D.,
Clinical Instructor in Gynæcology,

638 West Washington Street.

NORMAN BRIDGE, M. D.,
Lecturer on the Principles and Practice of Medicine,

81 Throop Street.

EDW. WARREN SAWYER, A. M., M. D.,
Lecturer on Obstetrics and Diseases of Children,

3701 Vincennes Avenue.

ALBERT B. STRONG, A. M., M. D.,
Lecturer on Anatomy,

533 West Monroe Street.

J. SUYDAM KNOX, A. M., M. D.,
Lecturer on Materia Medica and General Therapeutics,

16 Loomis Street.

JAMES NEVINS HYDE, A. M., M. D.,
Lecturer on the Diseases of the Genito-Urinary Organs,

117 S. Clark Street.

R. S. SUTTON, M. D.,
Lecturer on Gynæcology,

Rush Medical College.

A. B. STRONG, A. M., M. D.,
D. W. GRAHAM, A. M., M. D.,
Assistants in Clinical Surgery.

CHARLES G. SHIPMAN,
Registrar of the Surgical Clinic.

W. S. HARROUN, M. D.,
Assistant to the Chair of Clinical Medicine.

WM. T. BELFIELD, M. D.,
Demonstrator of Physiology.

LEWIS L. McARTHUR, M. D.,
W. H. TAYLOR, A. B.,
Demonstrators of Chemistry.

F. E. SHERMAN, M. D.,
E. W. WHITNEY, A. B., M. D.,
Assistant Demonstrators of Anatomy.

A. C. COTTON, M. D.,
Demonstrator of Materia Medica.

E. P. MURDOCK, M. D.,
Curator of the Museum.

Mr. FRANK JORDAN GOULD,
College Clerk.

PRACTITIONERS' COURSE.

1881.

The Practitioners' Course of lectures in this college will commence on Tuesday, April 5th, 1881, and conclude on the second of the following May, thus continuing four weeks.

The Faculty desire to announce distinctly that this Course is for the special benefit of practitioners of medicine, graduates or non-graduates, and is wholly distinct from the lectures to students in the college curriculum. A certificate of attendance, signed by the Faculty of the college, is granted at the conclusion of the course, to previous graduates in medicine.

The upper auditorium of the college building will be devoted exclusively to the use of practitioners during these lectures, which will thus be entirely separate from the annual spring course attended by students in the lower amphitheater. A requisite portion of the dissecting room will also, during the month, be exclusively allotted to those in attendance who desire to dissect or to perform the operations of surgery. All such operations will be performed under the supervision of the Professor. An abundance of material, both for operations and dissections, will be supplied at cost.

Lectures will be given by the Faculty on the subjects named below:

Prof. Allen, on Recent Progress in Practical Medicine.

Prof. Miller, on Obstetric Operations and Diseases of Children.

Prof. Gunn, on Dislocations of Hip and Shoulder, and some of the more important Fractures and Operations, with Practical Demonstrations.

Prof. Ross, on the more recent Methods of Clinical Investigation.

Prof. Byford will present such subjects in connection with Gynæcology as are of special interest to the General Practitioner.

Prof. Holmes, on the Diagnosis and Treatment of important Diseases of the Eye and Ear.

Prof. Lyman, on Obscure Diseases of the Nervous System.

Prof. Etheridge, on New Remedies.

Prof. Parkes, on External Surgical Landmarks, with Regional Demonstrations on the Body.

Prof. Haines, Full Practical Instruction in Urinalysis, both Chemical and Microscopical.

Prof. Hyde, on the Skin and Venereal Diseases of most Frequent Occurrence.

Prof. Owens, on the Surgical Treatment of Diseases of the Joints, and the Adjustment and Uses of Apparatus for correcting Deformities.

Four lectures will be given daily, between the hours of 8 A. M. and 12 M. From 2 to 4 P. M. of each day the regular college, dispensary, and hospital clinics will be held. At these clinics, seats will be reserved in the arena of the college amphitheater for practitioners in attendance, thus affording them the amplest opportunities for practical observation and study.

In addition to this, practical instruction will be given each day in Gynæcology, by the clinical adjuncts of the chair, Drs. Fitch, Nelson and Adolphus. Facilities are thus extended for intimate personal examination of a large number of interesting cases in this department.

At the conclusion of the clinical hours, daily lectures will be given from 4 to 5 P. M. by Dr. Danforth, on the Diseases of the Kidneys; by Dr. Wadsworth, on Physiological and Histological Demonstrations by the Aid of the Microscope; and by Dr. Ingals, on the Use of the Laryngoscope in the Recognition of Diseases of the Larynx. These lectures will be in the form of practical demonstrations.

Fees for the entire course, including matriculation, clinical instructions, and use of dissecting room (material only extra, and at cost), thirty dollars. Tickets can be had at any time by applying to the clerk of the college, Mr. Frank J. Gould, at the college building, corner of Wood and Harrison streets, either in person or by letter.

SPRING ANNOUNCEMENT.

THE TWENTY-SECOND ANNUAL SPRING SESSION of Rush Medical College will begin on Wednesday, the 2d of March, 1881, and will continue sixteen weeks, closing Wednesday, June 22d.

The Spring term in this College covers the field of medical instruction as thoroughly in all departments as the usual regular course of lectures in medical colleges; but it cannot be ranked among the conditions of graduation as a substitute for attendance during the Winter term.

In addition to a complete course of lectures on all the important branches of medicine, especially good opportunities are offered during the spring session for clinical observation, and for practical work in the dissecting room and in the chemical and physiological laboratories.

That the importance of this course has been highly appreciated may be known from the fact that 126 students matriculated in the Spring term of 1878, 187 in that of 1879, and 227 in that of 1880.

At the close of each term, students will be examined and will receive certificates of attendance and grade of examination, marked on a scale of ten. The grade will indicate the average standing in all the departments attended. Students who prefer to devote attention to only a part of the branches taught according to the schedule of studies presented on the next page may do so, and be relieved from examinations in other departments. In the studies taken a corresponding higher standing will be demanded for a given grade.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the college during three winter and three spring terms. To encourage this more extended curriculum of college study, final examinations in descriptive anatomy, physiology, chemistry, materia medica and therapeutics, are offered to three years' students at the end of the second winter session.

To every graduate who has studied three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed both by the Faculty of the college and by the Spring Faculty. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

Students of the college, and those who are pursuing their studies elsewhere with the intention of completing their collegiate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospital and dispensaries will be arranged, as far as possible, in accordance with this schedule, not only to accommodate beginners, but also advanced students, and practitioners who desire to review their studies.

As the spring course has become a most important addition to the college work, the period of study required for graduation is divided into six terms. The schedule has been adapted to the wants and convenience of students during each period of their progress, whether they are in the college or preparing to enter.

There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same designated in this schedule as suitable for each term.

TEXT BOOKS FOR STUDY.

Gray's Anatomy. Heath's Dissector. Foster's Physiology. Attfield's Chemistry. Bristowe's Practice of Medicine. Druitt's Surgery, for

beginners; Gross' or Erichsen's, for advanced students. Playfair's Obstetrics. Atthill's Diseases of Women. Bartholow's *Materia Medica*. Green's Pathology. Williams' or Carter's Diseases of the Eye. Frey's Compendium of Histology. Smith on Diseases of Children.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule, and to use the above text-books.

SCHEDULE OF STUDIES.

FIRST TERM—SPRING.

LECTURES:—*Anatomy*—Cells, Fibres, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*, with Laboratory work.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospital and Dispensary.

SECOND TERM—WINTER.

LECTURES:—*General Anatomy*—*Materia Medica*—*Physiology*—Alimentation, Digestion, Absorption. *Inorganic Chemistry*, with Laboratory work. *Surgery*—Ulceration and Suppuration, and their results.

Surgical Clinics. Dissection of the external soft parts. Study of the Bones. Practice in Auscultation and Percussion of the Normal Chest and Abdomen.

THIRD TERM—SPRING.

LECTURES:—*General Anatomy*—Bones—External soft parts. *Chemistry*—Laboratory work—Analysis, Urinalysis. *Physiology*—Secretion, Nutrition, Movements. *Surgery*—Surgical Dressings and Appliances. *Principles and Practice of Medicine*—Congestion, Inflammation and its Results, Fever—*Materia Medica*.

Exercises in normal and abnormal Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and its organs, and of the Fœtus. Medical and Surgical Clinics.

FOURTH TERM—WINTER.

LECTURES:—*General Anatomy*—Regional Dissections, Brain and Spinal Column, Histology. *Physiology*—Nervous System, Reproduction. *Organic Chemistry*—Laboratory. *Materia Medica*, *Surgery*, *Principles and Practice of Medicine*, *Obstetrics*—Generation, Fœtal Development, Normal Parturition.

Exercises in bandaging and application of splints. Anatomy and Physiology of the Eye and Ear. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. Pathology and Post Mortem Examinations.

(Final examinations in Descriptive Anatomy, Physiology, Chem-

istry, *Materia Medica* and Therapeutics for those who take three winter courses.)

FIFTH TERM—SPRING.

LECTURES:—*Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics.*

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special; Diseases of Women and Children. Pathology and Post Mortem Examinations.

SIXTH TERM—WINTER.

All Lectures and Clinics, Regional Dissections, Post Mortem Examinations. General Review.

(Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.)

PRACTICAL CHEMISTRY.

The college is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines will give a special course in practical chemistry, devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this college, students will find the spring term a most convenient time for the pursuit of this study.

PRACTICAL ANATOMY.

The very best advantages for the practical study of anatomy, including osteology, will be afforded. Material in abundance will be provided.

PRACTICAL PHYSIOLOGY.

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses. A course of lessons in Histology and Practical Microscopy will be given.

CLINICAL INSTRUCTION.

IN THE COLLEGE BUILDING.

A Surgical clinic will be given by Prof. Gunn every Saturday; a clinic on Diseases of the Chest by Prof. Ross, and one on Diseases of the

Nervous System by Prof. Lyman, every Thursday ; a clinic on Skin and Venereal Diseases by Prof. Hyde, and a Medical clinic by Dr. Bridge every Wednesday ; and a clinic on Orthopædic Surgery by Prof. Owens every Saturday, immediately after Prof. Gunn's clinic, all continuing throughout the year.

DISEASES OF CHILDREN.

Prof. Miller, aided by Dr. J. S. Knox, Clinical Adjunct, will also give before the entire class in the amphitheater one special clinic every Thursday throughout the year on DISEASES OF CHILDREN.

GYNÆCOLOGY.

Professor Byford, with Professors T. D. Fitch and D. T. Nelson and Dr. P. Adolphus, as Clinical Adjuncts, conducts a daily clinic in the college building, for the special instruction of the graduating class in CLINICAL GYNÆCOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics before small sections of the graduating class, Prof. Byford will give one public clinic every Monday, when especially interesting cases will be presented.

DISEASES OF THE EYE AND EAR.

Prof. Holmes, with the assistance of Dr. W. T. Montgomery and Dr. Lyman Ware, will give, throughout the year, a clinic, in the amphitheater, on DISEASES OF THE EYE AND EAR, every Wednesday.

Prof. Holmes will also give private instruction in the use of the ophthalmoscope, the adaptation of spectacles, and methods of examining the ear.

THE COUNTY HOSPITAL.

(OPPOSITE THE COLLEGE BUILDING.)

The hospital, standing on a block of twelve acres of land, has been erected at a cost of nearly half a million dollars.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the clinic room in which all the surgical, medical and special clinics are held. More than two thousand patients were treated at the hospital during the past year ; nearly two hundred important surgical operations were performed, of which forty were capital amputations.

In the rear of the amphitheater is the Mortuary or Necropsy Theater, in which are held all the post mortem examinations of the hospital. Most ample opportunities will be given for the complete study of the gross as well as of the microscopic appearances produced by disease.

THE FOLLOWING IS THE STAFF OF THE HOSPITAL :

SURGEONS.

MOSES GUNN, M. D., C. T. PARKES, M. D., R. N. ISHAM, M. D.,
 E. W. LEE, M. D., A. J. BAXTER, M. D.

PHYSICIANS.

NORMAN BRIDGE, M. D., J. H. HOLLISTER, M. D.,
 S. A. McWILLIAMS, M. D., LESTER CURTIS, M. D.

OPHTHALMOLOGIST.

S. D. JACOBSON, M. D.

GYNÆCOLOGISTS.

J. GUERIN, M. D., D. A. K. STEELE, M. D.

PATHOLOGIST.

C. FENGER, M. D.

THE ILLINOIS CHARITABLE EYE and EAR INFIRMARY.

CORNER OF PEORIA AND ADAMS STREETS.

This large institution affords almost unlimited facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 2100 patients received treatment at the Infirmary; 366 operations were performed.

Regular weekly clinics will be given during the session by Drs. Holmes, Hotz and Jones.

THE CENTRAL DISPENSARY.

Extraordinary opportunities are offered to students and practitioners for clinical instruction at the Central Free Dispensary, which occupies the first floor of the college building. More than six thousand different patients received treatment in this dispensary during the past year. Patients are classified according to their diseases. Every opportunity is afforded for the study of specialties.

One clinic will be given weekly, by each of the following named gentlemen :

Dr. Ingals, on Diseases of the Chest and Throat ; Dr. W. J. Maynard and Dr. R. D. MacArthur, on Skin and Venereal Diseases ; Dr. R. S. Hall and Dr. C. W. Earle, on Diseases of Children ; Dr. E. B. Loomis and Dr. D. W. Graham, on Surgery ; Dr. W. T. Montgomery and Dr. Lyman Ware, on Diseases of the Eye and Ear.

PRACTICAL OBSTETRICS.

The Lying-in Department of the Central Free Dispensary has been organized under the immediate care of Dr. P. Adolphus.

Advanced Students will have opportunities, at trifling expense, for the study of practical obstetrics at the bedside.

DISEASES OF THE TEETH AND MOUTH.

Drs. T. W. Brophy and E. S. Talbot will give three weekly clinics in this department of the dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

HOSPITAL INTERNES.

Positions of Internes in the Cook County Hospital, and the St. Luke's Hospital, are open each spring to students who graduate and pass a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging, and secure an extensive experience in every department of practical medicine and surgery.

EXAMINATIONS.

The regular examinations for a degree are held only once annually, during the last week of the winter session.

Students, however, who will enter the college for at least three full winter terms of study may receive their final examination in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Those students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee.

Students who have failed in their examination for the degree of doctor of medicine may receive their diplomas at the close of the spring term on passing a second examination in those branches in which they were deficient. There will be no fee for the second examination.

FEES FOR THE ANNUAL WINTER COURSE.

| | | |
|---|-----------|---------|
| Matriculation fee (good till the following March) | - - - - - | \$ 5.00 |
| Lecture fees for the course, | - - - - - | 75.00 |
| Admission to the dissecting room till the following March—material at cost price, | - - - - - | 5.00 |
| Admission tickets are issued only to holders of the general ticket. | | |
| Practical chemistry—chemicals at cost price, | - - - - - | 5.00 |
| Examination for degree—fee not returnable, | - - - - - | 30.00 |

Three years' students, examined at the end of their second winter, must advance one-half of this fee.

(There is no graduation fee.)

From Alumni of this college, and from its students who have taken and paid for two full courses of lectures, the matriculation fee only

(\$5.00) will be expected. From alumni of other respectable medical colleges the matriculation fee and one-half lecture fee will be required.

Tickets for Cook County Hospital (good till the following March) and for the Eye and Ear Infirmary—good for one year—each, \$5.00

FEES FOR THE ANNUAL SPRING COURSE.

Matriculation fee (good till the following March) - - - - \$ 5.00

Lecture tickets, - - - - - 20.00

This amount will be deducted from the fees of the next following winter season.

Graduates of the college are admitted on payment of the matriculation fee only; graduates of other regular medical colleges on payment of matriculation fee and ten dollars.

Fee for Practical Chemistry (students will also pay cost price for chemicals used), - - - - - 5.00

Admission to the dissecting room—material at cost price, - - 3.00

Tickets for the Cook County Hospital, and for the Eye and Ear Infirmary, good for one year, each, - - - - - 5.00

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the college, from the Treasurer, Professor Gunn, or from Mr. Frank J. Gould, the College Clerk.

Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select for them, on receipt of the matriculation fee previous to the opening of the session; *but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.*

The College Clerk may be seen in the college building, and will aid in obtaining boarding places, rooms, etc.

For further information address the Secretary, Prof. J. H. Etheridge, M. D., 1634 Michigan avenue.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board \$3.00.

ADMISSION TO THE COLLEGE.

On and after March 1, 1883, all applicants for admission to the college will be required to pass a satisfactory entrance examination, the details of which will be given in the annual announcement.

This examination will be conducted in writing. Great importance will be attached to the handwriting, spelling and knowledge of grammar and composition exhibited in the examination papers of candidates.

Previous matriculates of the college, graduates in medicine, and those who present proper certificates of having passed the entrance examination of a respectable literary college, or of graduation at a high school, will be exempt from this examination.

Practitioners are urged to advise young men not to enter upon their professional studies till they have fully qualified themselves for this examination. *County and district medical societies are requested to take special interest in this subject, for the Faculty believe that on the practitioners of the country, as well as on the medical colleges, rests the responsibility of advancing the standard of scholarship in the profession.*

The Faculty will be under obligations to any one who will send to the College the Annual Announcement for any year previous to 1850; also those for 1854-55 and 1860-61.

THE ALUMNI ASSOCIATION
OF
RUSH MEDICAL COLLEGE.

OFFICERS FOR THE YEAR 1880-81.

PRESIDENT,

OLON MARKS, M. D., OF MILWAUKEE, WIS.

VICE-PRESIDENTS,

W. C. HUNT, M. D., OF CHICAGO.

S. T. FERGUSON, M. D., OF MORRIS, ILL.

SECRETARY AND TREASURER,

E. FLETCHER INGALS, M. D., OF CHICAGO.

EXECUTIVE COMMITTEE,

J. NEVINS HYDE, M. D.,

T. D. FITCH, M. D.

F. HENROTIN, M. D.

The next annual meeting and banquet of the Alumni Association of Rush Medical College, will be held on "Commencement Day," Tuesday, February 22d, 1881, at 7½ o'clock P. M.

The election of officers and transaction of other business will precede the banquet.

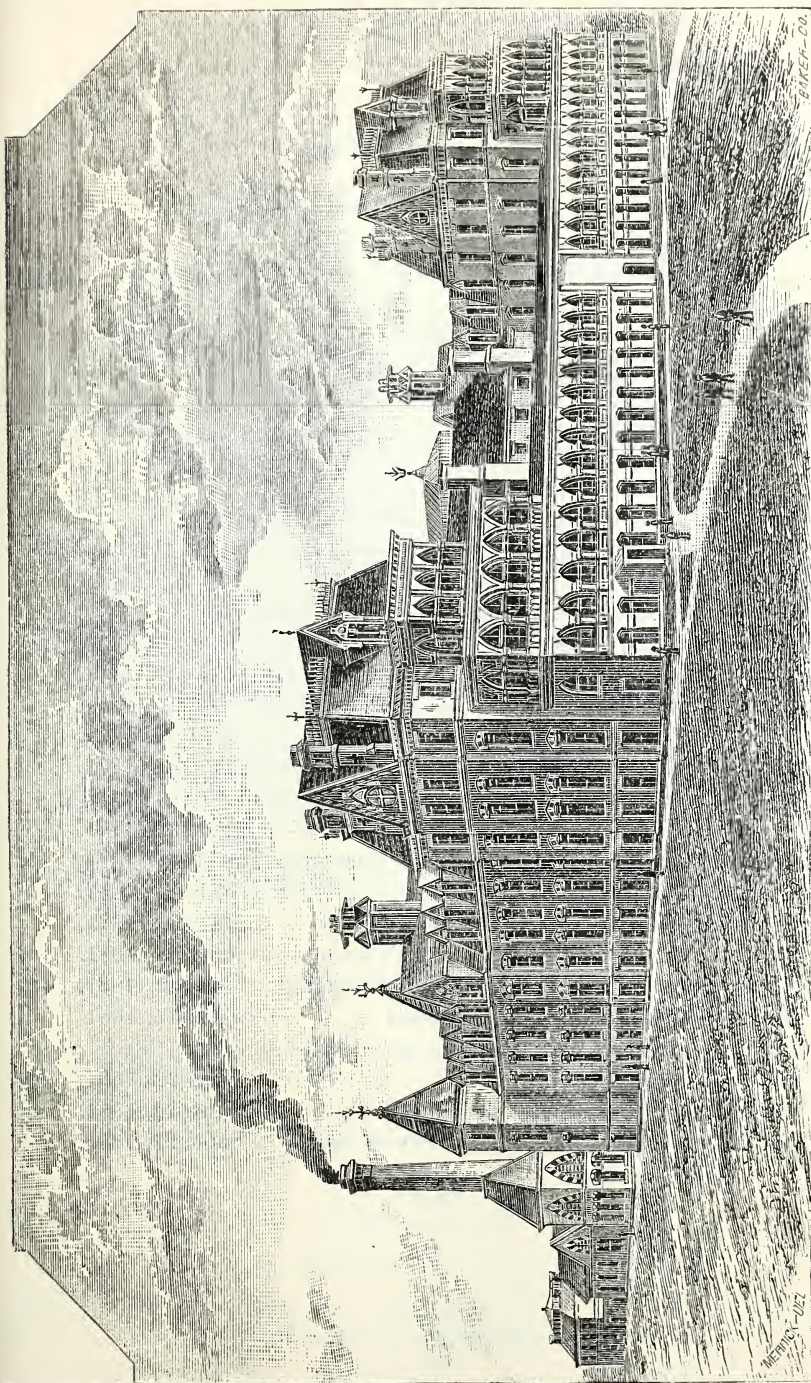

All Alumni in good standing are invited to the banquet by the Faculty of the College. It should be especially understood that all expenses of the banquet are defrayed by the Faculty. The annual dues are devoted to printing the proceedings of the meetings and to such other purposes as the Association may determine.

Members of the Association who have not already paid their dues should forward the amount (\$1.00) to Dr. E. Fletcher Ingals, 183 Clark street, Chicago, to secure a copy of the transactions of the last meeting. All Alumni of the College who are in good standing in the profession are requested to join the Association, which each one may do by forwarding his name and \$1.00 to the Secretary of the association.

In writing to the Secretary always state the date of graduation.

Graduates are requested to notify the Secretary of the College, Prof. J. H. Etheridge, of change of residence.

The usual Commencement exercises of the College will be held Tuesday, February 22d, at 2½ o'clock P. M.

COOK COUNTY HOSPITAL,
CORNER OF WOOD AND HARRISON STREETS—OPPOSITE RUSH MEDICAL COLLEGE.

COLLEGE CALENDAR.

1881.

The College year commences, - - - - March 1.

The Spring Announcement is issued in January.

The Announcement of the Practitioners' Course is issued in February.

The Final examinations (for three years' students)
in Anatomy, Physiology, Chemistry, Mate-
ria Medica and Therapeutics (see page 11), Feb. 18, 1881.

The final examinations for Graduation are held
during the week ending - - - - Feb. 22, 1881.

THE ANNUAL WINTER COURSE 1880-81 closes Feb. 22, 1881.

THE ANNUAL COMMENCEMENT 2:30 P. M. (Tues-
day), - - - - Feb. 22, 1881.

The Annual Meeting of Alumni Association,
and Banquet, 7:30 P. M. - - - - Feb. 22, 1881.

The SPRING COURSE opens (Wednesday), - March 2, 1881.

The PRACTITIONERS' COURSE opens (Tuesday), - April 5, 1881.

The PRACTITIONERS' COURSE closes (Monday), May 2, 1881.

The Annual Announcement is issued - - June 15, 1881.

The Spring Course examinations are held dur-
ing the week ending - - - - June 22, 1881.

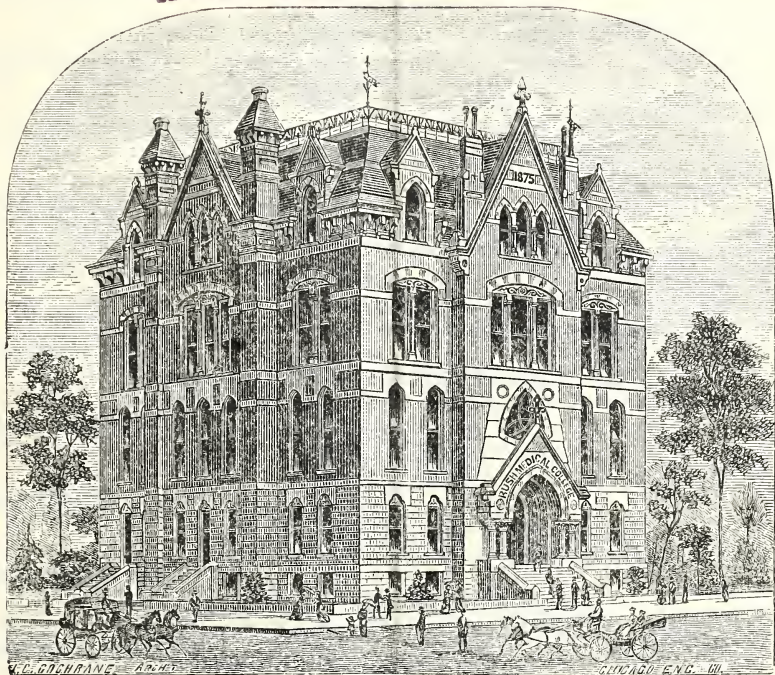

The SPRING COURSE closes (Wednesday), - - June 22, 1881.

THE ANNUAL WINTER COURSE 1881-82 opens - Sept. 27, 1881.

THIRTY-NINTH COLLEGE YEAR.

FACULTY.

J. ADAMS ALLEN, M. D., LL. D., PRESIDENT,
Professor of the Principles and Practice of Medicine,
1456 Michigan Avenue.

DE LASKIE MILLER, PH. D., M. D.,
Professor of Obstetrics and Diseases of Children,
2011 Wabash Avenue.

MOSES GUNN, M. D., LL. D.,
Professor of the Principles and Practice of Surgery and Clinical Surgery,
2101 Calumet Avenue.

JOSEPH P. ROSS, A. M., M. D.,
Professor of Clinical Medicine and Diseases of the Chest,
423 West Washington Street.

WILLIAM H. BYFORD, A. M., M. D.,
Professor of Gynæcology,
125 State Street.

EDWARD L. HOLMES, A. M., M. D.,
Professor of Diseases of the Eye and Ear,
207 S. Clark Street, N. E. cor. of Adams Street.

HENRY M. LYMAN, A. M., M. D.,
Professor of Physiology and of Diseases of the Nervous System,
533 West Adams Street.

JAMES H. ETHERIDGE, A. M., M. D., SECRETARY,
Professor of Materia Medica and of Medical Jurisprudence,
1634 Michigan Avenue.

CHARLES T. PARKES, M. D.,
Professor of Anatomy,
125 State Street.

WALTER S. HAINES, M. D.,
Professor of Chemistry and Toxicology,
Rush Medical College.

JAMES NEVINS HYDE, A. M., M. D.,
Professor of Skin and Venereal Diseases,
117 S. Clark Street.

JOHN E. OWENS, M. D.,
Professor of Orthopædic Surgery,
1806 Michigan Avenue.

FRANCIS L. WADSWORTH, M. D.,
Adjunct Professor of Physiology,
131 Dearborn Avenue.

PROF. T. D. FITCH, M. D.,
296 West Monroe Street.

PROF. D. T. NELSON, M. D.,
2400 Indiana Avenue.

P. ADOLPHUS, M. D.,
638 West Washington Street.
Clinical Adjuncts to the Chair of Gynæcology.

J. SUYDAM KNOX, M. D.,
Clinical Adjunct to the Chair of Diseases of Children,
16 Loomis Street.

A. B. STRONG, A. M., M. D.,
Demonstrator of Anatomy,
533 West Monroe Street.

SPRING FACULTY.

ISAAC N. DANFORTH, M. D., PRESIDENT,
Lecturer on Pathology,

349 West Adams Street.

JOHN E. OWENS, M. D.
Lecturer on Surgery,

1806 Michigan Avenue.

FRANCIS L. WADSWORTH, M. D., SECRETARY,
Lecturer on Physiology and Histology,

131 Dearborn Avenue.

E. FLETCHER INGALS, A. M., M. D.,
Lecturer on Diseases of the Chest and Physical Diagnosis,

188 S. Clark Street.

LAFAYETTE W. CASE, M. D.,
Lecturer on Dermatology and Venereal Diseases,

332 Division Street.

PHILIP ADOLPHUS, M. D.,
Clinical Instructor in Gynæcology,

638 West Washington Street.

NORMAN BRIDGE, M. D.,
Lecturer on the Principles and Practice of Medicine,

81 Throop Street.

EDW. WARREN SAWYER, A. M., M. D.,
Lecturer on Obstetrics and Diseases of Children,

3701 Vincennes Avenue.

ALBERT B. STRONG, A. M., M. D.,
Lecturer on Anatomy,

533 West Monroe Street.

J. SUYDAM KNOX, A. M., M. D.,
Lecturer on Materia Medica and General Therapeutics,

16 Loomis Street.

JAMES NEVINS HYDE, A. M., M. D.,
Lecturer on the Diseases of the Genito-Urinary Organs,

117 S. Clark Street.

R. S. SUTTON, M. D.,
Lecturer on Gynæcology,

Rush Medical College.

A. B. STRONG, A. M., M. D.,
D. W. GRAHAM, A. M., M. D.,
Assistants in Clinical Surgery.

CHARLES G. SHIPMAN,
Registrar of the Surgical Clinic.

W. S. HARROUN, M. D.,
Assistant to the Chair of Clinical Medicine.

WM. T. BELFIELD, M. D.,
Demonstrator of Physiology.

LEWIS L. McARTHUR, M. D.,
W. H. TAYLOR, A. B.,
Demonstrators of Chemistry.

F. E. SHERMAN, M. D.,
E. W. WHITNEY, A. B., M. D.,
Assistant Demonstrators of Anatomy.

A. C. COTTON, M. D.,
Demonstrator of Materia Medica.

E. P. MURDOCK, M. D.,
Curator of the Museum.

Mr. FRANK JORDAN GOULD,
College Clerk.

SPRING ANNOUNCEMENT.

1881.

THE TWENTY-SECOND ANNUAL SPRING SESSION of Rush Medical College will begin on Wednesday, the 2d of March, 1881, and will continue sixteen weeks, closing Wednesday, June 22d.

The Spring term in this College covers the field of medical instruction as thoroughly in all departments as the usual regular course of lectures in medical colleges ; but it cannot be ranked among the conditions of graduation as a substitute for attendance during the Winter term.

In addition to a complete course of lectures on all the important branches of medicine, especially good opportunities are offered during the spring session for clinical observation, and for practical work in the dissecting room and in the chemical and physiological laboratories.

That the importance of this course has been highly appreciated may be known from the fact that 126 students matriculated in the Spring term of 1878, 187 in that of 1879, and 227 in that of 1880.

At the close of each term, students will be examined and will receive certificates of attendance and grade of examination, marked on a scale of ten. The grade will indicate the average standing in all the departments attended. Students who prefer to devote attention to only a part of the branches taught according to the schedule of studies presented on the next page may do so, and be relieved from examinations in other departments. In the studies taken a corresponding higher standing will be demanded for a given grade.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the college during three winter and three spring terms. To encourage this more extended curriculum of college study, final examinations in descriptive anatomy, physiology, chemistry, materia medica and therapeutics, are offered to three years' students at the end of the second winter session.

To every graduate who has studied three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed both by the Faculty of the college and by the Spring Faculty. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

Students of the college, and those who are pursuing their studies elsewhere with the intention of completing their collegiate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospital and dispensaries will be arranged, as far as possible, in accordance with this schedule, not only to accommodate beginners, but also advanced students, and practitioners who desire to review their studies.

As the spring course has become a most important addition to the college work, the period of study required for graduation is divided into six terms. The schedule has been adapted to the wants and convenience of students during each period of their progress, whether they are in the college or preparing to enter.

There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same designated in this schedule as suitable for each term.

TEXT BOOKS FOR STUDY.

Gray's Anatomy. Heath's Dissector. Foster's Physiology. Attfield's Chemistry. Bristowe's Practice of Medicine. Druitt's Surgery, for beginners; Gross', or Erichsen's, for advanced students. Playfair's Obstetrics. Atthill's Diseases of Women. Bartholow's Materia Medica. Green's Pathology. Williams' or Carter's Diseases of the Eye. Frey's Compendium of Histology. Smith on Diseases of Children.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule, and to use the above text-books.

SCHEDULE OF STUDIES.

FIRST TERM—SPRING.

LECTURES:—*Anatomy*—Cells, Fibres, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*, with Laboratory work.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospital and Dispensary.

SECOND TERM—WINTER.

LECTURES:—*General Anatomy*—*Materia Medica*—*Physiology*—Alimentation, Digestion, Absorption. *Inorganic Chemistry*, with Laboratory work. *Surgery*—Ulceration and Suppuration, and their results.

Surgical Clinics. Dissection of the external soft parts. Study of the

Bones. Practice in Auscultation and Percussion of the Normal Chest and Abdomen.

THIRD TERM—SPRING.

LECTURES:—*General Anatomy*—Bones—External soft parts. *Chemistry*—Laboratory work—Analysis, Urinalysis. *Physiology*—Secretion, Nutrition, Movements. *Surgery*—Surgical Dressings and Appliances. *Principles and Practice of Medicine*—Congestion, Inflammation and its Results, Fever—*Materia Medica*.

Exercises in normal and abnormal Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and its organs, and of the Fœtus. Medical and Surgical Clinics.

FOURTH TERM—WINTER.

LECTURES:—*General Anatomy*—Regional Dissections, Brain and Spinal Column, Histology. *Physiology*—Nervous System, Reproduction. *Organic Chemistry*—Laboratory. *Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics*—Generation, Fœtal Development, Normal Parturition.

Exercises in bandaging and application of splints. Anatomy and Physiology of the Eye and Ear. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. Pathology and Post Mortem Examinations.

(Final examinations in Descriptive Anatomy, Physiology, Chemistry, *Materia Medica* and Therapeutics for those who take three winter courses.)

FIFTH TERM—SPRING.

LECTURES:—*Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics*.

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special; Diseases of Women and Children. Pathology and Post Mortem Examinations.

SIXTH TERM—WINTER.

All Lectures and Clinics, Regional Dissections, Post Mortem Examinations. General Review.

(Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.)

PRACTICAL CHEMISTRY.

The college is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines will give a special course in practical chemistry.

devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this college, students will find the spring term a most convenient time for the pursuit of this study.

PRACTICAL ANATOMY.

The very best advantages for the practical study of anatomy, including osteology, will be afforded. Material in abundance will be provided.

PRACTICAL PHYSIOLOGY.

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses. A course of lessons in Histology and Practical Microscopy will be given.

CLINICAL INSTRUCTION.

IN THE COLLEGE BUILDING.

A Surgical clinic will be given by Prof. Gunn every Saturday ; a clinic on Diseases of the Chest by Prof. Ross, and one on Diseases of the Nervous System by Prof. Lyman, every Thursday ; a clinic on Skin and Venereal Diseases by Prof. Hyde, and a Medical clinic by Dr. Bridge every Wednesday ; and a clinic on Orthopædic Surgery by Prof. Owens every Saturday, immediately after Prof. Gunn's clinic, all continuing throughout the year.

DISEASES OF CHILDREN.

Prof. Miller, aided by Dr. J. S. Knox, Clinical Adjunct, will also give before the entire class in the amphitheater one special clinic every Thursday throughout the year on DISEASES OF CHILDREN.

GYNÆCOLOGY.

Professor Byford, with Professors T. D. Fitch and D. T. Nelson and Dr. P. Adolphus, as Clinical Adjuncts, conducts a daily clinic in the college building, for the special instruction of the graduating class in CLINICAL GYNÆCOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics before small sections of the graduating class, Prof. Byford will give one public clinic every Monday, when especially interesting cases will be presented.

DISEASES OF THE EYE AND EAR.

Prof. Holmes, with the assistance of Dr. W. T. Montgomery and Dr. Lyman Ware, will give, throughout the year, a clinic, in the amphitheater, on DISEASES OF THE EYE AND EAR, every Wednesday.

Prof. Holmes will also give private instruction in the use of the ophthalmoscope, the adaptation of spectacles, and methods of examining the ear.

THE COUNTY HOSPITAL.

(OPPOSITE THE COLLEGE BUILDING.)

The hospital, standing on a block of twelve acres of land, has been erected at a cost of nearly half a million dollars.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the clinic room in which all the surgical, medical and special clinics are held. More than two thousand patients were treated at the hospital during the past year; nearly two hundred important surgical operations were performed, of which forty were capital amputations.

In the rear of the amphitheater is the Mortuary or Necropsy Theater, in which are held all the post mortem examinations of the hospital. Most ample opportunities will be given for the complete study of the gross as well as of the microscopic appearances produced by disease.

| | | |
|---|-----------|---------|
| Matriculation fee (good till the following March) | - - - - - | \$ 5.00 |
| Lecture tickets, | - - - - - | 20.00 |

This amount will be deducted from the fees of the next following winter season.

Graduates of the college are admitted on payment of the matriculation fee only; graduates of other regular medical colleges on payment of matriculation fee and ten dollars.

Fee for Practical Chemistry (students will also pay cost price for chemicals used), - - - - - 5.00

Admission to the dissecting room—material at cost price, - - 3.00

Tickets for the Cook County Hospital, and for the Eye and Ear Infirmary, good for one year, each, - - - - - 5.00

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the college,

from the Treasurer, Professor Gunn, or from Mr. Frank J. Gould, the College Clerk.

Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select for them, on receipt of the matriculation fee previous to the opening of the session; *but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.*

The College Clerk may be seen in the college building, and will aid in obtaining boarding places, rooms, etc.

For further information address the Secretary, Prof. J. H. Etheridge, M. D., 1634 Michigan avenue.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board \$3.00.

PRACTITIONERS' COURSE.

The Practitioners' Course of lectures in this college will commence on Tuesday, April 5th, 1881, and conclude on the second of the following May, thus continuing four weeks.

The Faculty desire to announce distinctly that this Course is for the special benefit of practitioners of medicine, graduates or non-graduates, and is wholly distinct from the lectures to students in the college curriculum. A certificate of attendance, signed by the Faculty of the college, is granted at the conclusion of the course, to previous graduates in medicine.

The upper auditorium of the college building will be devoted exclusively to the use of practitioners during these lectures, which will thus be entirely separate from the annual spring course attended by students in the lower amphitheater. A requisite portion of the dissecting room will also, during the month, be exclusively allotted to those in attendance who desire to dissect or to perform the operations of surgery. All such operations will be performed under the supervision of the Professor. An abundance of material, both for operations and dissections, will be supplied at cost.

Lectures will be given by the Faculty on the subjects named below:

Prof. Allen, on Recent Progress in Practical Medicine.

Prof. Miller, on Obstetric Operations and Diseases of Children.

Prof. Gunn, on Dislocations of Hip and Shoulder, and some of the more important Fractures and Operations, with Practical Demonstrations.

Prof. Ross, on the more recent Methods of Clinical Investigation.

Prof. Byford will present such subjects in connection with Gynæcology as are of special interest to the General Practitioner.

Prof. Holmes, on the Diagnosis and Treatment of important Diseases of the Eye and Ear.

Prof. Lyman, on Obscure Diseases of the Nervous System.

Prof. Etheridge, on New Remedies.

Prof. Parkes, on External Surgical Landmarks, with Regional Demonstrations on the Body.

Prof. Haines, Full Practical Instruction in Urinalysis, both Chemical and Microscopical.

Prof. Hyde, on the Skin and Venereal Diseases of most Frequent Occurrence.

Prof. Owens, on the Surgical Treatment of Diseases of the Joints, and the Adjustment and Uses of Apparatus for correcting Deformities.

Four lectures will be given daily, between the hours of 8 A. M. and 12 M. From 2 to 4 P. M. of each day the regular college, dispensary, and hospital clinics will be held. At these clinics, seats will be reserved in the arena of the college amphitheater for practitioners in attendance, thus affording them the amplest opportunities for practical observation and study.

In addition to this, practical instruction will be given each day in Gynæcology, by the clinical adjuncts of the chair, Drs. Fitch, Nelson and Adolphus. Facilities are thus extended for intimate personal examination of a large number of interesting cases in this department.

At the conclusion of the clinical hours, daily lectures will be given from 4 to 5 P. M. by Dr. Danforth, on the Diseases of the Kidneys; by Dr. Wadsworth, on Physiological and Histological Demonstrations by the Aid of the Microscope; and by Dr. Ingals, on the Use of the Laryngoscope in the Recognition of Diseases of the Larynx. These lectures will be in the form of practical demonstrations.

Fees for the entire course, including matriculation, clinical instructions, and use of dissecting room (material only extra, and at cost), thirty dollars. Tickets can be had at any time by applying to the clerk of the college, Mr. Frank J. Gould, at the college building, corner of Wood and Harrison streets, either in person or by letter.

ADMISSION TO THE COLLEGE.

On and after March 1, 1883, all applicants for admission to the college will be required to pass a satisfactory entrance examination, the details of which will be given in the annual announcement.

This examination will be conducted in writing. Great importance will be attached to the handwriting, spelling and knowledge of grammar and composition exhibited in the examination papers of candidates.

Previous matriculates of the college, graduates in medicine, and those who present proper certificates of having passed the entrance examination of a respectable literary college, or of graduation at a high school, will be exempt from this examination.

Practitioners are urged to advise young men not to enter upon their professional studies till they have fully qualified themselves for this examination. *County and district medical societies are requested to take special interest in this subject, for the Faculty believe that on the practitioners of the country, as well as on the medical colleges, rests the responsibility of advancing the standard of scholarship in the profession.*

The Faculty will be under obligations to any one who will send to the College the Annual Announcement for any year previous to 1850; also those for 1854-55 and 1860-61.

THE ALUMNI ASSOCIATION
OF
RUSH MEDICAL COLLEGE.

OFFICERS FOR THE YEAR 1880-81.

PRESIDENT,

OLON MARKS, M. D., OF MILWAUKEE, WIS.

VICE-PRESIDENTS,

W. C. HUNT, M. D., OF CHICAGO.

S. T. FERGUSON, M. D., OF MORRIS, ILL.

SECRETARY AND TREASURER,

E. FLETCHER INGALS, M. D., OF CHICAGO.

EXECUTIVE COMMITTEE,

J. NEVINS HYDE, M. D.,

T. D. FITCH, M. D.

F. HENROTIN, M. D.

The next annual meeting and banquet of the Alumni Association of Rush Medical College, will be held on "Commencement Day," Tuesday, February 22d, 1881, at 7½ o'clock, P. M.

The election of officers and transaction of other business will precede the banquet.

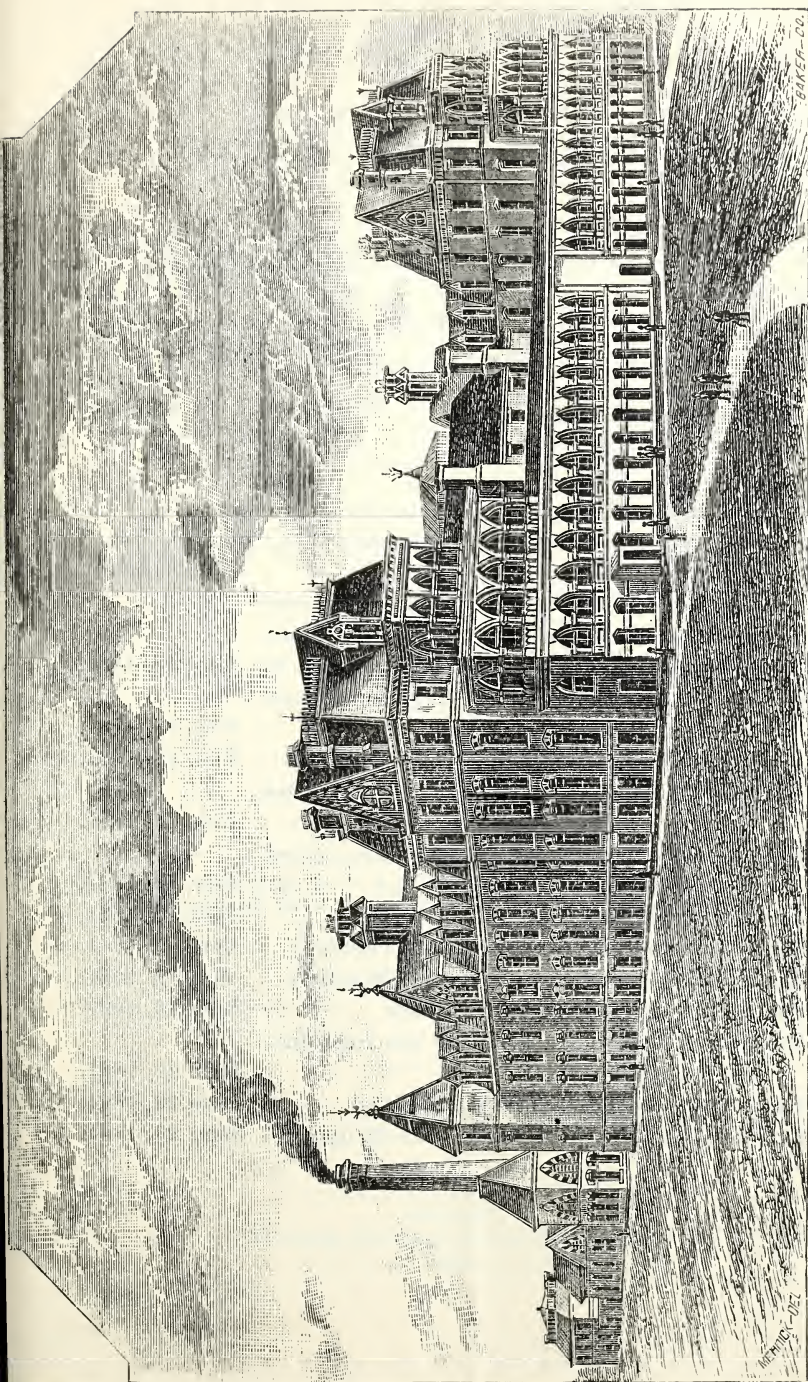

All Alumni in good standing are invited to the banquet by the Faculty of the College. It should be especially understood that all expenses of the banquet are defrayed by the Faculty. The annual dues are devoted to printing the proceedings of the meetings and to such other purposes as the Association may determine.

Members of the Association who have not already paid their dues should forward the amount (\$1.00) to Dr. E. Fletcher Ingals, 183 Clark street, Chicago, to secure a copy of the transactions of the last meeting. All Alumni of the College who are in good standing in the profession are requested to join the Association, which each one may do by forwarding his name and \$1.00 to the Secretary of the association.

In writing to the Secretary always state the date of graduation.

Graduates are requested to notify the Secretary of the College, Prof. J. H. Etheridge, of change of residence.

The usual Commencement exercises of the College will be held Tuesday, February 22d, at 2½ o'clock P. M.

COOK COUNTY HOSPITAL,
CORNER OF WOOD AND HARRISON STREETS—OPPOSITE RUSH MEDICAL COLLEGE.

COLLEGE CALENDAR.

1881.

The College year commences, - - - - March 1.

The Spring Announcement is issued in January.

The Announcement of the Practitioners' Course is issued in February.

The Final examinations (for three years' students)
in Anatomy, Physiology, Chemistry, Materia Medica and Therapeutics (see page 9), Feb. 18, 1881.

The final examinations for Graduation are held
during the week ending - - - - Feb. 22, 1881.

THE ANNUAL WINTER COURSE 1880-81 closes Feb. 22, 1881.

THE ANNUAL COMMENCEMENT 2:30 P. M. (Tuesday), - - - - Feb. 22, 1881.

The Annual Meeting of Alumni Association,
and Banquet, 7:30 P. M. - - - - Feb. 22, 1881.

The SPRING COURSE opens (Wednesday), - - March 2, 1881.

The PRACTITIONERS' COURSE opens (Tuesday), - April 5, 1881.

The PRACTITIONERS' COURSE closes (Monday), May 2, 1881.

The Annual Announcement is issued - - June 15, 1881.

The Spring Course examinations are held during
the week ending - - - - June 22, 1881.

The SPRING COURSE closes (Wednesday), - - June 22, 1881.

THE ANNUAL WINTER COURSE 1881-82 opens - Sept. 27, 1881.

Demonstrator, and Lecturer on Anatomy.
533 West Monroe Street.

E. FLETCHER INGALS, A.M., M.D.,
Lecturer on Diseases of the Chest and Physical Diagnosis.
183 S. Clark Street

LAFAYETTE W. CASE, M.D.,
Lecturer on Dermatology.
332 Division Street.

EDW. WARREN SAWYER, A.M., M.D.,
Lecturer on Obstetrics and Diseases of Children.
3701 Vincennes Avenue.

WILLIAM T. BELFIELD, M.D.,
Lecturer on Physiology.

EUGENE W. WHITNEY, A.B., M.D.,
Lecturer on Surgical Dressings and Demonstrator of Surgery.

ALFRED C. COTTON, M.D.,
Lecturer on Materia Medica and Clinical Assistant to the Chair of Diseases of Children.

ROSWELL PARK, A.M., M.D.,
Lecturer on Surgery.

FREDERICK H. MERCER, M.D.,
Lecturer on Microscopy and Histology.

DAVID W. GRAHAM, A.M., M.D.,
Assistant in Clinical Surgery.

JOHN A. ROBISON, A.M., M.D.,
Assistant to the Chair of Clinical Medicine.

LEWIS L. MCARTHUR, M.D.,
WILLIAM H. TAYLOR, A.B., M.D.,
Demonstrators of Chemistry.

FREDERICK E. SHERMAN, M.D.,
THOMAS J. SHAW, M.D.,
Assistant Demonstrators of Anatomy.

EDW. P. DAVIS, A.M., M.D.,
Demonstrator of Physiology and Prosector to the Chair of Surgery.

WM. H. MORGAN, M.D.,
Clinical Assistant to the Chair of Diseases of Children.

ARTHUR B. BEVAN,
Registrar of the Surgical Clinic.

MR. FRANK JORDAN GOULD, *College Clerk.*

ANNUAL ANNOUNCEMENT

FOR THE SESSION OF 1882-83.

THE FORTIETH ANNUAL SESSION OF RUSH MEDICAL COLLEGE will commence Tuesday evening, September 26, 1882, and will continue twenty-one weeks. The introductory address will be delivered by Prof. Norman Bridge.

Instruction in this institution is given by lectures, clinics, practical work in the dissecting room and laboratories, and by repeated oral examinations.

THREE YEARS' COURSE.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the college during three winter and three spring terms. To encourage this more extended curriculum of college study, final examinations in descriptive anatomy, physiology, chemistry, materia medica and therapeutics, are offered to three years' students at the end of the second winter session.

To each graduate who has studied, as above recommended, three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed by the Faculty of the College. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

COURSE OF STUDY.

Students of the college and those who are pursuing their studies elsewhere with the intention of completing their Collegiate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospitals and dispensaries will be arranged, as far as possible, in accordance

with this schedule, not only to accommodate beginners, but also advanced students and practitioners who desire to review their studies.

As the Spring Course has become a most important addition to the College work, the period of study required for graduation is divided into six terms. The following schedule of studies has been adapted to the wants and convenience of students during each period of their progress, whether they are in the College or preparing to enter.

There is reason to believe that it is of far greater advantage to the student, during his Collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same designated in this schedule as suitable for each term respectively.

TEXT BOOKS FOR STUDY.

Wilson's (1880) or Gray's Anatomy. Heath's Dissector. Foster's Physiology. Attfeld's Chemistry. Bristowe's Practice of Medicine. Druitt's Surgery, for beginners; Gross' or Erichsen's, for advanced students. Byford's Obstetrics. Byford's Diseases of Women. The National Dispensary. Green's Pathology. Williams' or Carter's Diseases of the Eye. Satterthwaite on Histology. Day on Diseases of Children. Flint's Clinical Medicine.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule and to use the above-named text-books.

SCHEDULE OF STUDIES.

First Term—Spring.

LECTURES:—*Anatomy*—Cells, Fibers, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospital and Dispensary.

Second Term—Winter.

LECTURES:—*General Anatomy—Materia Medica—Physiology—Alimentation, Digestion, Absorption. Inorganic Chemistry, with Laboratory work. Surgery—Ulceration and Suppuration, and their results.*

Surgical Clinics. Dissection of the external soft parts. Study of the Bones. Practice in Auscultation and Percussion of the Normal Chest and Abdomen.

Third Term—Spring.

LECTURES:—*General Anatomy—Bones—External soft parts. Chemistry—Laboratory work—Analysis. Urinalysis. Physiology—Secretion, Nutrition, Movements. Surgery—Surgical Dressings and Appliances. Principles and Practice of Medicine—Congestion, Inflammation and its results, Fever—Materia Medica.*

Exercises in Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and of its organs, and of the Fœtus. Medical and Surgical Clinics.

Fourth Term—Winter.

LECTURES:—*General Anatomy—Regional Dissections, Brain and Spinal Column, Histology. Physiology—Nervous System, Reproduction. Organic Chemistry—Laboratory. Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics—Generation, Fœtal Development, Normal Parturition.*

Exercises in bandaging and application of splints. Operations on the Cadaver. Anatomy and Physiology of the Eye and Ear. Exercises in Auscultation and Percussion, Medical and Surgical Clinics. Pathology and Post Mortem Examinations.

Final examinations in Descriptive Anatomy, Physiology, Chemistry, Materia Medica and Therapeutics for those who take three winter courses.

Fifth Term—Spring.

LECTURES:—*Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics. Hygiene, Medical Jurisprudence.*

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special; Diseases of Women and Children. Pathology and Post Mortem Examinations.

Sixth Term—Winter.

All Lectures and Clinics, Regional Dissections; Post Mortem Examinations. General Review.

Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.

PRACTICAL CHEMISTRY.

The College is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines will give a special course in practical chemistry, devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this College, students will find the spring term a most convenient time for the pursuit of this study. The Course on Pharmacy in this College is full and complete; and graduates of this College will be fully qualified for the Practice of Pharmacy.

PRACTICAL ANATOMY.

The very best advantages will be afforded for the practical study of anatomy, including osteology. Material in abundance will be provided. Most recent and approved means of illustration by calcium light will be used.

PRACTICAL PHYSIOLOGY.

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses.

INSTRUCTION IN DENTISTRY.

The Faculty has introduced into this institution a course of instruction in Dental Surgery. It must be distinctly understood that instruction will only be given in the theoretical principles necessary for comprehension of the diseases of the teeth and their treatment. Clinical instruction in dental diseases will be taught in the dental department of the Central Dispensary (in the College building). The art of dental manipulation and the clinical treatment of diseases of the teeth will be taught by actual demonstration at the Chicago Dental Infirmary, under the direction of the most experienced and skillful dental surgeons in Chicago. In this infirmary students desiring to make a specialty of dentistry, will receive practical instruction in the medical and surgical treatment of the teeth. All such students, at the conclusion of their medical course, will receive, from the incorporators and trustees of the infirmary, certificates of qualification for the practice of dental surgery. Such certificates are equivalent to the degree of D.D.S., conferred by the ordinary dental colleges. No charge in addition to the ordinary medical college fees will be made for attendance upon the dental lectures, nor for clinical instruction in the Central Dispensary; but from those who desire the *certificate* of instruction in the Dental Infirmary, a small fee will be required by that institution.

CLINICAL INSTRUCTION IN THE COLLEGE BUILDING.

Medicine and Surgery.

A SURGICAL CLINIC will be given by Prof. Gunn every Saturday; a clinic on DISEASES OF THE CHEST by Prof. Ross, and one on DISEASES OF THE NERVOUS SYSTEM, by Prof. Lyman, every Thursday; and a MEDICAL CLINIC by Prof. Bridge, every Wednesday; continuing throughout the year.

Diseases of Children.

Prof. Miller, aided by Adjunct Prof. J. S. Knox, will also give before the entire class in the amphitheater, one special clinic, each week throughout the year, on DISEASES OF CHILDREN.

Gynecology.

Prof. Byford, with Prof. D. T. Nelson and Dr. P. Adolphus, will hold a daily clinic in the college building, for the special instruction of the graduating class in CLINICAL GYNÆCOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics, before small sections of the graduating class, there will be given each week one public clinic, when the most interesting cases will be presented.

Skin and Venereal Diseases.

Prof. Hyde will give a clinic on SKIN AND VENEREAL DISEASES at 3 P. M. of every Monday throughout the year, in the upper amphitheater of the building. The extensive collection of plates and photographs, lately purchased by the College, has been arranged in cabinets, on the same floor and adjacent to the amphitheater, with especial view to the illustration of this department.

He will also, with the assistance of Dr. W. J. Maynard, give private instruction in Skin and Venereal Diseases, with a view to the practical study of these subjects by the aid of clinical material.

Diseases of the Eye and Ear.

Prof. Holmes, with the assistance of Dr. W. T. Montgomery, will give every Wednesday throughout the year, a clinic, in the amphitheater, on DISEASES OF THE EYE AND EAR.

AT THE COUNTY HOSPITAL.

(Opposite the College Building.)

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly half a million dollars.

New Pavilions are now in process of erection, which will greatly increase the facilities of this commodious structure.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the room in which all the surgical, medical and special clinics are held. More than two

thousand patients were treated at the hospital during the past year ; nearly three hundred important surgical operations were performed, of which many were capital amputations.

In the rear of the amphitheater is the Mortuary or Necropsy Theater, in which are held all the post-mortem examinations of the hospital. Most ample opportunities will be given for the complete study of the gross as well as of the microscopical appearances produced by disease.

AT THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.

This large institution affords almost unlimited facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 1600 patients received treatment at the Infirmary ; 270 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes and Hotz.

AT THE CENTRAL DISPENSARY.

Extraordinary opportunities are offered to students and practitioners for clinical instruction at the Central Free Dispensary, which occupies the first floor of the College building. More than eighteen thousand patients received treatment in this dispensary during the past year. Patients are classified according to their diseases. Every opportunity is afforded for the study of specialties.

One clinic will be given weekly, by each of the following named gentlemen :

Drs. E. F. Ingals and J. A. Robison, on DISEASES OF THE CHEST AND THROAT ; Drs. W. J. Maynard and R. D. MacArthur, on SKIN AND VENEREAL DISEASES ; Dr. R. S. Hall, on GENERAL MEDICINE ; Drs. E. B. Loomis and D. W. Graham, on SURGERY ; Dr. W. T. Montgomery, on DISEASES OF THE EYE AND EAR ; Dr. A. C. Cotton, on DISEASES OF CHILDREN.

DISEASES OF THE TEETH AND MOUTH.

Prof. T. W. Brophy and Dr. E. S. Talbot will give three weekly clinics in this department of the dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

HOSPITAL INTERNES.

Positions of Interne in the Cook County, the Michael Reese and the St. Luke's Hospitals are open each spring to students who graduate and pass a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging; and acquire an extensive experience in every department of practical medicine and surgery.

SPRING COURSE.

The Faculty ask special attention to the great advantages offered by the Spring Course, beginning the first day in March, at 10 A. M., and continuing sixteen weeks. It consists of lectures and recitations at the College, practical work in the laboratories and dissecting room, and clinical instruction at the hospitals and dispensaries.

During the last week of each term the students will be examined and will receive certificates of attendance and grade of examination. The grade will indicate the average standing in all the departments attended. Students who prefer to attend only a part of the branches taught, according to the schedule of studies above presented, may do so, and be relieved from examinations in other departments. In the studies taken a correspondingly higher standing will be demanded for a given grade.

This course cannot be considered as a "*course of lectures*," in the requirements for graduation.

It is a source of satisfaction to the Faculty, as it must be to all friends of the College, that so many young men are impressed with the importance of spending two terms each

year in their professional study. Two hundred and seventy-four students matriculated during the spring session of 1882.

EXAMINATIONS.

The regular examinations for a degree are held only once annually, during the last week of the winter session.

Students, however, who will enter the college for at least three full winter terms of study may receive their final examination in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee. (See *Fees*, page 14.)

GRADUATION.

The following are the requirements for the degree of Doctor of Medicine :

1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, with such primary education as is clearly requisite for a proper standing with the public and the profession.

2d. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, of which the first one may have been in some other recognized medical college, and the last in this institution. The lectures of the spring term cannot be considered as a "*course of lectures*" in this requirement.

3d. He must have received clinical instruction during at least one college term.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent of having dissected each region of the body.

5th. He must have taken one course in Practical Chemistry, under the direction of the Professor of Chemistry.

6th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the

examination fee with the Treasurer, on or before the 20th day of January.

7th. Every candidate must undergo a full and satisfactory written or oral examination on each branch taught in the College.

FEES FOR THE ANNUAL WINTER COURSE.

| | |
|---|--------|
| <i>Matriculation fee (good till the following March).....</i> | \$5.00 |
| <i>Lecture fees for the course.....</i> | 75.00 |
| <i>Admission to the dissecting room till the following March</i> <i>—material at cost price.....</i> | 5.00 |
| <i>Admission tickets are issued only to holders of the general ticket.</i> | |
| <i>Practical Chemistry—chemicals at cost price.....</i> | 5.00 |
| <i>Final examination—fee not returnable.....</i> | 30.00 |

Three years' students, examined at the end of their second winter, must advance one-half of this fee.

There is no fee for graduation. When fully qualified the candidate is entitled to the degree, and the diploma in testimony thereof.

From Alumni of this college, and from its students who have taken and paid for two full courses of lectures, the matriculation fee only, (\$5.00) will be required. From alumni of other recognized medical colleges the matriculation fee and one-half lecture fee will be required.

FEES FOR THE ANNUAL SPRING COURSE.

| | |
|---|--------|
| <i>Matriculation Fee (good till the following March).....</i> | \$5.00 |
| <i>Lecture Tickets.....</i> | 20.00 |
| <i>This amount will be deducted from the fees of the next following winter session.</i> | |

Graduates of the College are admitted on payment of the matriculation fee only; graduates of other regular medical colleges on payment of matriculation fee and ten dollars.

| | |
|--|------|
| <i>Fee for Practical Chemistry (students will also pay cost price for chemicals used).....</i> | 5.00 |
| <i>Admission to the dissecting room—material at cost price..</i> | 5.00 |
| <i>Tickets for the Cook County Hospital, and for the Eye and Ear Infirmary, good for one year, each.....</i> | 5.00 |

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the College, from the Treasurer, Prof. GUNN, or from Mr. FRANK J. GOULD, College Clerk.

Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select for them, on receipt of the matriculation fee previous to the opening of the session; *but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.*

The College Clerk may be seen in the College building, and will aid in obtaining boarding places, rooms, etc.

Students will receive their mail at the College Building twice daily. The College Building is in telephonic communication with all parts of the city.

For further information address the Secretary, Prof. J. H. ETHERIDGE, No. 1634 Michigan avenue.

BOARD AND ROOM.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board, \$2.50 to \$4.00.

TEXT BOOKS.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended:

Chemistry.—Attfeld.

Anatomy.—Quain, Wilson, (1880), Gray, Heath's Dissector.

Physiology.—Foster. Carpenter.

Materia Medica and Therapeutics.—The National Dispensatory, Ringer, Binz.

Medical Jurisprudence.—Elwell, Taylor, Beck, Casper.

Obstetrics.—Playfair, Cazeaux.

Diseases of Women.—Byford, Barnes.

Diseases of Children.—Smith, Day.

Surgery and Surgical Pathology.—For first course students, Druitt.—For advanced students, Gross, Erichsen, Holmes, Paget.

Practice of Medicine.—Flint, Bristowe, Watson.

Nervous Diseases.—Rosenthal, Bramwell and Ross.

Pathology.—Rindfleisch, Billroth.

Clinical Medicine.—Bennett, Trousseau.

Diseases of the Heart.—Flint, Walsh.

Diseases of the Lungs.—Walsh, Fuller.

Physical Diagnosis.—Ingals.

Surgical Anatomy.—MacLise, Godlee.

Microscopical Anatomy.—Stricker, Satterthwaite, Schæfer.

Ophthalmology.—Williams, Wells, Stellwag, Carter.

Otology.—Roosa, Burnett, Buck.

Dermatology.—Hyde.

Hygiene.—Buck, Parkes.

PRACTITIONERS' COURSE.

The Practitioners' Course of lectures in this College will commence on Tuesday, April 3d, 1883, 10 A. M., and will continue four weeks.

The Faculty desire to announce distinctly that this Course is for the special benefit of practitioners of medicine, graduates or non-graduates, and is wholly distinct from the lectures to students in the college curriculum. A certificate of attendance signed by the President and Secretary of the college, is granted at the conclusion of the course.

The upper auditorium of the college building will be devoted exclusively to the use of practitioners during these lectures, which will thus be entirely separate from the annual

spring course attended by students in the lower ampitheater. A requisite portion of the dissecting room will also, during the month, be exclusively allotted to those in attendance who desire to dissect or to perform the operations of surgery. An abundance of material, both for operations and dissections, will be supplied at cost.

Lectures will be given by the Faculty on the subjects named below:

PROF. ALLEN, on Derangements of Digestion.

PROF. MILLER, on Selected Topics in Obstetrics.

PROF. GUNN, on the philosophy of manipulation in Dislocations of the Hip and Shoulder; and some of the more important Fractures and Operations, with Practical Demonstrations.

PROF. ROSS, on the Clinical Investigation of the Diseases of the Heart.

PROF. BYFORD will present such subjects in connection with Gynæcology as are of special interest to the General Practitioner.

PROF. HOLMES on The Diagnosis and Treatment of important Diseases of the Eye and Ear.

PROF. LYMAN, on Diseases of the Nervous System.

PROF. ETHERIDGE, on New Remedies.

PROF. PARKES, on Regional Demonstrations and special dissections.

PROF. HAINES, on Urinalysis.

PROF. HYDE, on the Skin and Venereal Diseases of most Frequent Occurrence.

PROF. BRIDGE, on Fevers and their Practical Management.

DR. INGALS, on Laryngology.

DR. BELFIELD on Medical and Surgical Electricity.

DR. MERCER, on Physiological and Histological Demonstrations by the Aid of the Microscope.

Four lectures will be given daily, between the hours of 8 A. M. and 12 M. From 2 to 4 P. M. of each day the regular College, dispensary, and hospital clinics will be held. At these clinics, seats will be reserved in the arena of the College amphitheater.

theater, for practitioners in attendance, thus affording them the amplest opportunities for practical observation and study.

In addition to this, practical instruction will be given each day in Gynæcology, by the clinical adjuncts of that chair, Profs. Etheridge and Nelson, and Dr. Adolphus. Facilities are thus extended for intimate personal examination of a large number of interesting cases in this department.

Fees for the entire course, including matriculation, clinical instruction and use of dissecting room (material only extra and at cost), thirty dollars. Tickets can be had at any time by applying to the Clerk of the College, Mr. FRANK J. GOULD, at the College building, either in person or by letter. Seats can be secured by forwarding the matriculation fee to the Clerk of the College.

Matriculates for Session 1881-82.
